THE SHOUSE CASE.

Criminal Court Busy Today Hearing Another Murder Case.

Special to THE TELEGRAM.

Winston-Salem, Nov. 15—A jury was secured yesterday afternoon for the case against James Bryant for killing Burrell Shouse a few weeks ago. Examination of witnesses began this morning and was concluded at 1 o'clock. Solicitor Griffith opened the argument and four speeches will be made. The case will probably go to the jury late this evening. The counsel for the state ask for a verdict of murder in the first degree, while counsel for defendant claim the shooting was excusable homicide.

A session of court was held last night and several jail cases were disposed of. Hon. R B. Glenn acted as solicitor.

W. C. Brown left here yesterday for New York, where he will be married to Miss Bettie Brown, of this city at 7 o'clock this evening. Miss Brown has been visiting in New York for about a week.

Cutting Scrape.

About 10 o'clock last night a negro named Frank Donnell walked into Holton's drug store and called for a physician, saying that a negro woman had assaulted him with a knife during a quarrel at Wilkerson's distillery. Dr. Battle dressed the wound, which was on Donnell's neck and was about five inches long. Dr. Battle says the mental artery was severed, but that the negro is not in a dangerous condition Donnell refused to give the name of the woman.

No High Point News Today.

Again we are minus our usual High Point news budget. A number of times recently the news letter has been carried by Greensboro and returned at night or the next morning. That is probably the case today. Our correspondent is very prompt about mailing his letters and it is not his fault, nor the fault of this office that the High Point news is sometimes omitted.

Numbers of people who bought shoes of us last season reinforced with A. S. T. Co.'s Tips, tell us that they last nearly twice as long as shoes made in the ordinary way. We have just received a fresh supply of these excellent little shoes made with the A S. T. Co. sole leather tip at the toes and extending around the sides. They come both button and laced, and are sold for $1.10 and $1.25.

HAS LADYSMITH FALLEN?

Paris Papers So Report, But London Denies It.

WAR ON "CIVILIZED LINES"

Notice of Bombardments Given, etc., and a Wait of Two Hours for Recovery of Five Bodies.

By Cable to the TELEGRAM.

Cape Town, Nov. 15—A Pretoria dispatch dated the 9th says: "Reports from Ladysmith have been received which say there was heavy cannonading started at daybreak. There were some Boer forces within fifteen hundred yards of the British. When the cannonading ceased a rifle fire began." The dispatch also announced that all was quiet at Kimberley and Mafeking.

London, Nov. 15—A belated despatch from Mafeking, brought from Malagpae the 8th says: "All is quiet today after having been bombarded heavily all the week. Friday night squadron D, of the Protectorate regiment, made a magnificent charge of the bayonet, driving the enemy from their entrenchments, but the British were unable to hold the trenches.

Loss: killed, 6; wounded, 9; prisoners, 2

The bombardment was ineffectual and only resulted in wounding one person. The Boers used a Howitzer and several other guns of various sizes The enemy were entrenched on every side in great numbers, gradually pushing to a close.

We are well supplied with provisions. The fight thus far has been conducted along civilized lines, always giving ample notice of a bombardment. On Saturday a wait of two hours was given for the ambulance corps to recover six British soldiers who were killed while charging the trenches. General Jan Botha told a member of the ambulance corps that the Boer loss was very heavy and his heart was very sore.

FALL OF LADYSMITH?

Paris, Nov. 15—The Matin and other papers publish dispatches today announcing the fall of Ladysmith. Several of these papers represent the garrison as having become thoroughly demoralized and insubordinate.

REPORT NOT BELIEVED.

London, Nov. 15—The Paris reports of the fall of Ladysmith are not believed, and cause no excitement here. Nevertheless there is some anxiety over an authentic version of later developments at Ladysmith.

Little Manila News.

By Cable to THE TELEGRAM

Manila, Nov. 15—Heavy rains continue and there is little news. Owing to the telegraph extending only to San Jose it is not known whether troops have reached Boambang. Another despatch was captured Saturday from which it was inferred that Aguinaldo was then within about twenty hours march to the south of San Jacinto, and he had evidently made preparations to retreat if necessary.

No Stars, But Earthquakes.

By Wire to THE TELEGRAM.

Lima, Peru, Nov. 15—No celestial phenomena was seen last night, but about half past twelve o'clock this morning there was a strong earthquake shock, accompanied by a great rumbling. People in Lima and Callao wer alarmed and rushed into the streets, squares, and out on the sea beach.

Indians Hang an American.

By Wire To THE TELEGRAM.

Nogales, Nov. 15.—An official report from Hermosillo, Mexico, reports the renewal of hostilities, Yaqua's taking the town of Vican by Mexicans. Indians captured an American and hanged him. Another was taken prisoner, but his fate is unknown.

Five Killed, Many Injured.

By Wire to the TELEGRAM.

Amsterdam, Nov. 15—A London express train from Flushing collided with another train near Capillo, in a fog this morning. Five persons were killed outright and twenty-nine injured. Fifteen were mortally injured.

Hobart Improving.

By Wire to THE TELEGRAM.

Paterson, Nov. 15—Vice President Hobart continues to improve and the family are now hopeful of his recovery. There is no foundation for the report that he will go south.

Coming Event.

Cards are out announcing the marriage of Miss Virginia Bernard, of this city, to Mr. W. A. Devin, formerly of this place but now a rising young business man of Oxford. The marriage ceremony will take place at the home of the bride on Asheboro street at nine o'clock a. m. on November 29th.

Petition in Bankruptcy.

A voluntary petition in bankruptcy was filed this morning with Clerk Trogdon, of the federal court, by J. T. Hodges, of Ruby, Caswell county. The assets are not given. Property claimed to be exempted, $287. The unsecured claims of creditors aggregate $1,716.52.

SMALLEST YIELD IN YEARS.

The Cotton Crop May Fall Below the Offical Estimate.

Washington, Nov. 14—The statistician of the department of agriculture in a report sent to press today says that the fact that the preliminary official estimate of the cotton crop several times has turned out to be an underestimate has been due in every instance to a failure to keep pace with the rapid expansion of the productive area. When, therefore, the very large crop of last year made it manifest that the acreage had increased beyond both official, and almost all commercial estimates, it was determined to institute a special and very thorough investigation into the entire crop situation this year. The productive area last year is found to have been 25,000,000 acres and that for the present year to be abont 23,500,000 acres with a probability that the final returns will show the present acreage to have been below rather than above the amount stated. The investigation discloses one of the smallest average yields per acre in many years and in estimating the total crop at a maximum 9,500,000 bales a substantial and most ample allowance has been made for any tendency to take a too pessimistic view of the situation, the actual indications at the present moment pointing to a crop of less than 9,000,000 bales. The report further says:

"In his capacity as cotton expert to the United States commission, the statistician has had the preparation of the United States cotton exhibit for the Paris exposition and his duties in that connection have afforded him additional facilities for ascertaining the actual condition of the crop in every part of the country. The unimpeachable evidence that has come to him in that capacity is in every way confirmatory of the most unfavorable official reports."

Home Goes to Mrs. Dewey.

Washington, Nov. 14—Preliminary steps have been taken, it is said, to transfer to Mrs. Dewey the title to the Dewey home, 1,747 Rhode Island avenue, which the American people presented to the admiral in recognition of his brilliant naval victory, at Manila. The matter is in the hands of the District Title Company, and the papers, it is understood, have been drawn to await the necessary signatures.

The conveyance will be through a third party, presumably one of the admiral's secretaries.. The matter was placed in the hands of the title company some days ago, with a view to such conveyance, and it has been the understanding that the transfer would be completed upon the return of Admiral and Mrs Dewey. Unless present plans are changed, the deeds will be put on record shortly.

Thanksgiving Service.

The churches in South Greensboro are arranging for a union service at the Friends' church on Thanksgiving day. Centenary, Grace, Westminster and the Friends will all unite in the service. The choirs of the different churches are requested to meet tonight after prayer meeting at Centenary church to select some music for the occasion.

Additional Trains.

The first of next month the Southern Railway will put on their fast trains, Nos. 31 and 32, between Washington and Jacksonville. They have ordered five more of those large compound type passenger engines to handle these trains, similar to those they have on their other fast trains. The addition of these two trains gives Greensboro a total of thirty-one passenger trains per day.

For Housebreaking,

Mack Paschall, Pritchett Dailey, Billy Deaver and James McCauley, young white boys, each about 15 years of age, were arrested this morning, charged with breaking into A. B. Voltz's grocery store on October 18th. The case will be tried next Monday morning before 'Squire Pritchett. All the boys, except Mack Paschall, furnishrd bail for their appearance.

Night Force Enlarged.

Heretofore there have been only three policemen on night duty, but according to an arrangement of the police committee the night force will be enlarged in the future to four men. Sanitary Officer Alexander will go on night duty tonight. The day force will look after the sanitary work.

Stealing the Charge.

Cabott Vickers, a young white man from Winston, was arrested this afternoon on the charge of stealing a gold watch and $2 in money from Mamie Smith last night. He was given a hearing before 'Squire Pritchett at 2:30 o'clock and bound over to court in a bond of $100, in default of which he was committed to jail.

W. C. T. U. Meeting.

The Women's Christian Temperance Union will hold a meeting tomorrow afternoon, November 16th, at 3 o'clock, at Grace Methodist Protestant church. This is an important meeting. A committee from north Greensboro will meet with us on special business.

All members of the union are requested to be present.

THE UTAH CONGRESSMAN.

The Case of the Mormon Which Has Been Much Discussed.

A MOST INTERESTING CONTEST.

Other Cases Which Attract Attention Are Tolbert, of South Carolina, and Wise, of Virginia.

Special to the TELEGRAM.

At the beginning of the coming session of congress, it is expected that the case Congressman-elect Roberts, of Utah, will be referred to in the house of representatives. Of course no definite action will be taken on the case at once, but the matter will in all probability be referred to the committee on elections. On the first day of the session, as the oath is being administered to members, is the belief that some member of the house will object to the oath being administered to Mr. Roberts, and that gentlemen will be requested to step aside, and the oath will not be taken by him until after it is administered to all of the other members. He will not have long to wait, however, before, becoming a full-fledged member of the national body, as the oath is always administered to members from the states in alphabetical order. Utah is among the last states to be called. After the calling of the roll is finally completed, and the oath is administered to the delegates from the different territories, then the speaker will swear in Mr. Roberts. It is likely then that a resolution will be offered which will be a privileged one, declaring the seat vacant, and this resolution will be referred to the committee on elections without debate. The committee will not then be formed, and will not be probably for some weeks after congress meets. Until the case is acted upon by the committee, and the house itself, Mr. Roberts will be entitled to all the privileges of a member, being privileged both to speak and vote in the house as other members.

The case of the Utah congressman, which has attracted such wide discussion will be among the most interesting contests before the house since the days of former Delegate George Q. Cannon, of the then territory of Utah, who was at least once unseated by a former house. It is generally felt by the members of the house who are now here that Roberts will retain the seat to which he holds a certificate which is said to be legal in every particular, and that the house will not undertake to go into an examination of the private affairs of a member. The southern members of congress coming to Washington, so far as known, are to a man adverse to the house taking any action looking to the unseating of Roberts.

Another election case which has given rise to much discuss on is that of Tolbert, of South Carolina, who figured prominently in the recent Greenwood election troubles. Nothing is apparently known here as to the intentions of Mr. Tolbert, but if he intends pushing his contest he is keeping quiet about it. The belief is that he will not attempt to unseat the sitting member, but will let the case go by default, as the saying is. Tolbert has not been in Washington for some time. A few months ago he was a frequent visitor at the St. James Hotel, but several months, he has not been here at all. Nothing is known at the hotel about his intentions.

The contested election case of Dr. Richard A. Wise, a member of the last house of representatives, against Young, who will represent the Norfolk, Virginia, district, is also an interesting case. Dr. Wise was defeated on the face of the returns by a large majority, and at least one of the members of the Virginia, state republican committee, Bowden, himself an ex-member of the house, has expressed the opinion, it is said, that Dr. Wise was not elected. Mr. Young is also a former member of the lower house. Dr. Wise bases his claims upon alleged frauds, and he insists that the house will seat him.

The statements made in certain quarters to the effect that at a coming conference of democratic leaders, to be held in Chicago, that the question of the minority leadership of the house will be determined upon is causing no little indignation among democratic members of the house of representatives. The members of the house say that the question of the leadership of the minority in that body can be safely entrusted to the members of the democratic caucus, and that the question cannot be settled in any other manner.

Representative De Armond is developing quite a little strength as a prospective democratic leader of the house. He will have the solid Missouri delegation behind him, and also the delegations from other states near by to Missouri.

Representatives Burkhead and Richardson, of Tennessee, will also be candidates for the leadership. Representative Bailey will not be a candidate.

Round Lake, Miss., Nov. 14—The negro Dickerson, who assassinated Arthur Maxwell and M. K. Grey, on Friday night, was captured near here last night and shot to death. The negro resisted arrest.

UNDERTAKER PLAYS GHOUL.

He Did a Thriving Business in Corpses —Five Dead Bodies Found.

St. Louis, Mo., Nov. 14—Four zinc-lined trunks, such as are used by traveling men to carry samples, each containing a corpse, were taken from the baggage room at union station today, and E. D. Thompson, a brother of Frank Thompson, who says he is city undertaker of Memphis, Tenn., is under arrest. Charges against Thompson are being formulated.

For some time the police have been aware that a traffic in human bodies has been going on through this city, and have been on the watch for evidence. Recently a shipment of four bodies in trunks was made, addressed to W. H. Hamsen at Keokuk, Iowa, to whom those captured today were consigned.

When taken to police headquarters Thompson made a clean breast of the whole affair. He said he had the contract for burying the city dead of Memphis. For some time he had been selling the bodies to medical colleges throughout this part of the country. His method was to pack them with excelsior in drummers' zinc lined trunks and take them with him as baggage as far as St. Louis. From here he shipped the trunks to their destination by express. Thompson said he had been paid all the way from $50 to $200 per body. He said the name W. H. Hamsen, to which the trunks were addressed in Keokuk, is a fictitious one, but refused to state who his consignee is.

In the trunks are the bodies of three negroes, two men and a boy, and a white woman. From appearance they all died of consumption or some other wasting disease. The white woman's features are regular and her hair black. Her front teeth are gold filled. All the bodies are well preserved.

Worth-y Compliment.

The decision of the supreme court of North Carolina to the effect that State Treasurer W. H. Worth was right in refusing to pay out of the $110,000 realized by a bond issue, the penitentiary debts, justifies the stand taken by that official—which was at the time declared by New York lawyers to be based on solid legal ground. Treasurer Worth contended that these debts should be paid from the annual appropriations and not from the bond issue. This is not the only case where his firmness has proven to be dictated by good sense. In many of his official acts he has evinced a clear understanding of his rights and duties, and has been upheld by public opinion and by the bench He is among the most efficient and painstaking public servants of the state, and he has during his incumbency made a record of which he may properly feel proud.—Financial Review

Mr. Bryan's Response.

Baltimore, Nov. 14.—The executive committee of the Maryland democratic (silver) association made public today the following reply to their congratulatory telegram to W. J. Bryan to the members of the association:

"I am greatly obliged to you for the congratulations sent through your executive committee. The fight in Nebraska was made on national issues and the result is gratifying. The returns from other states indicate a growing opposition to republican policies. We are much pleased to see that Maryland is again in the democratic column and ready for the contest of 1900. "Very truly yours,

"W. J. Bryan."

Sanford's Water Works.

Sanford, Nov. 14—Two artesian wells, bored many hundred feet in the ground, furnishing an unlimited supply of water, a large reservoir holding many hundred gallons of water, a standpipe 110 feet high, full of water and a line of piping penetrating to all parts of the town were practically completed here today and the first test of the water works was made, proving satisfactory in every detail.

This is truely a wonderful achievement for a town as small as Sanford was six months ago, when the water works were begun, but the town has more than doubled itself during the past six months and will more than double itself again in the next six months.

Her Terrible Mistake.

Illustrious Precedent.

"That was a pleasing afterthought of yours," remarked the old preacher who had listened to a sermon by one of his youngest brethren, "when you drew upon the analogies of nature to prove the immortality of the soul."

"An afterthought?" said the younger clergyman, in some perplexity.

"Yes; you thought of it about 2,400 years after Socrates."—Chicago Tribune.

THE FORGOTTEN WHITE WOMAN OF THE SOUTH.

The following is a condensation of an article entitled "The Forgotten White Woman of the South," by D. F. St. Clair, in the New York Outlook, embracing a fine tribute to Dr. Charles D McIver and his noble work in behalf of the young women of North Carolina:

The aristocracy begotten of slavery in the south has died a slow hard death so far as her sons were concerned, and slower and harder as regards her daughters. There has long lived there what Mr Walter H. Page and men of his advancement have spoken of as "the forgotten man." The south's forgotten white woman has, of course, been more profoundly forgotten than ever her brother was. The family, the state and the church thought of him first, as they have always thought of him first elsewhere. And, between brother and sister, the boy was packed off to school in the fall, and the girl left to pick cotton, water horses, plow, if necessary, and go to mill; or, if not this work of a man, to stay at home and nurse her ignorance and add to her years, to grow in physique for some equally ignorant man's wife.

The forgotten woman is, of course, not confined to the south, but there she has existed out of all proportion on account of her extremely dependent condition and the indifference to the education of those who were not able to educate themselves. When the family conceded her an education there was only a few private enterprises and the church grudgingly to carry out the wish. These institutions, on high sounding curricula, high-priced, scanty board, and an aristocratic atmosphere, bred a woman without red blood, without democracy, and without new brain cells, and she served to prolong social caste in the south and to cause the state to continue to forget its obligations to the mothers of men. I do not indict all these institutions, for many of them did good work, and are still doing it; but it is at such an expense that the masses of the south's women could not avail themselves of the opportunities.

Not until some seven years ago was the first state college for women opened in the south. This is known as the state normal and industrial college, located at Greensboro, N. C., and has had its genesis and remarkable success in the mind of one young man, Dr. Charles D. McIver. Dr. McIver is not only a man of great enthusiasm and executive ability, but he possesses an immense capital of resource and invention. He is constantly adding new features of self-support and for the students at this institution. At the beginning of the new year it will be practicable for nearly a hundred indigent girls to support themselves while pursuing their studies. This feature of self-support has been in existence for several years, and instead of creating caste among the students, has resulted in a magnificent levelling process. A new line of work which is being organized, and which will give support to a score more of girl students, is the dairy farm. This college is most fortunate in having attached to it some one hundred and sixty acres of fine farming land. This has been stocked with a piggery and some fifty head of choice Jersey cows, which are to be milked by the college girls. The dairy will not only be self-sustaining, but it will bring money to the institution from the butter these young ladies will make. This butter has the college stamp on it, and already the demand for it outside the college is greater than the supply can be.

Dr. McIver is, of course, busily engaged in working out other commendable schemes for these thousands of forgotten women. Dressmaking is yet to be added, and others are in embryo. In every instance a girl not only supports herself but greatly profits the institution through her work. Dr. McIver's work is now giving to his state and section a democratic womanhood with more culture and self-reliance than the south's aristocratic womanhood ever possessed. He is giving to the south a woman who may not be quite so beautiful and charming as her aristocratic ante-bellum sister was, but is a deal better equipped to meet and master the civilization that cold-blooded, practical northern men have in the past generation developed in this republic.

We notice among the telegraph departments of several papers, including the Telegram, a dispatch headed with this query: "Where's Aguinaldo?" Aggy seems to have the power of melting himself into thin air when the Americans are running him close.

LaGrippe, with its after affects, annually destroys thousands of people. It may be quickly cured by One Minute Cough Cure, the only remedy that produces immediate results in coughs, colds, croup, bronchitis, pneumonia and throat and lung troubles. It will prevent consumption. Howard Gardner.

"ABSENT-MINDED BEGGAR."

Parody on Rudyard Kipling's New War Poem.

Rudyard Kipling's new war poem, "The Absent-Minded Beggar," in which he makes an appeal for funds for Tommy Atkins' family, has been parodied by several American writers. One of the best of the parodies (by Joe Kerr, as printed in the New York Herald) is the following:

When your absent-minded beggar has
been punctured by a Boer,
When you've finished killing Kruger
with your guns,
Will you kindly quit, or will you keep
on fighting more and more
And fertilizing earth with mothers'
sons?
O, absent-minded Englishman, with
weaknesses so great,
You spend too much of precious time
in fighting!
What's the good of always having
things to "wipe off from a slate"
When peace is sweet, and war so
bitter—blighting?

Coster's son—King's son—son of a
hundred guns,
(Many thousand, horse and foot,
eager for any fray),
Keep 'em at home for your credit's
sake (let 'em look after their sons)
And you'll need no poet imploring
you to "pay—pay—pay!"

Just suppose he "married secret, asking
no permission to,"
Knowing well he wouldn't get it if he
did;
Suppose there's "coal and victuals
and the house rent falling due,"
And suppose there is a rather likely
kid!
If the English warring weakness would
let Tommy stay at home,
The Boers would and his family
wouldn't miss him;
But J. Bull is forever causing Tommy
A. to roam
So far away his own girl cannot
kiss him.

Lord's son—footman's son—son of a
bally earl,
Son of a gun from Pimlico—no matter what the lay—
Keep him away from your wicked wars
(let him look after his girl)
And there'll be no Rudyard Kipling
you to "pay—pay—pay!"

Those families by thousands who, too
proud to beg or speak,
Would chuck their stick and bedding up the spout
And live on nothing, doubled, paid in
cipher twice a week,
'Cause the man and wages both are
ordered out,
Needn't have their pride so crippled,
if the country wouldn't call
So often for the man and always find
him;
And Tommy wouldn't have to chuck
his job and leave it all
And the happy future, once before,
behind him.

Duke's job—Jew's job—baronet, sweep
or count,
Stable or palace or butcher shop—
none need go away;
Each can be home at work or play
(drinking at pleasure's fount)
And you'll pass no hat for this or
that and "pay—pay—pay."

Just manage, England, manage, when
you look war in the face,
To arbitrate; we know that you'll
prefer—
Save your temper and your empire,
keeping Tommy in his place,
And he (not you and me!) will care
for her.
We are absent-minded beggars and we
may forget that we
Fight a wee bit, too, but England,
dear, we prize you;
And we know that you'll be sensible
and quickly, plainly see
That we're competent to jolly and
advise you.

Queen's home—prince's home—home of
a costermonger,
(Fifty millions horse and foot—ready
for any fray),
Give up war and go to work (you
older ones and younger)
And have no Rudyard Kipling you
to "pay—pay—pay!"

Fierce Fighting in Venezuela.

Washington, Nov. 14—The navy department today received the following cablegram from Commander Hemphill, dated at La Guara, November 13th:

"The Detroit arrived today. Land fighting was very severe. Venezuelan gun vessels bombarded forts with Hotchkiss six-pounder rapid-fire guns, unloaded shells, without result. The foreign men-of-war lay off the harbor during the engagement. On return, rendered assistance to the wounded. The Detroit's hospital corps rendered important service. Being no prospect of further trouble at Puerto Cabello, I came here to await arrival of the Dolphin. (Signed) "Hemphill."

Brained by a Negro.

Columbus, Ga., Nov. 14—Bartlett Horn, a well known and highly respected white man in Harris county, 25 miles from Columbus, was brained with an axe in his home by a negro who was in his employ. He was struck three terrible blows. His eight-year-old son saw the dead committed and gave the alarm to his mother. Had it not been for the timely alarm there would probably have been a repetition of the Sam Hose affair. Mrs. Horn was unprotected.

Parties are out after the murderer, and if caught he will be lynched.

Tommy—"Pop, what is economy?" Tommy's Pop—"Economy, my boy, is when your mother spends ten cents for car fare to go down town and buy a cake of soap that costs two cents more uptown.

Hoax—"Bjones seems to be greatly interested in golf. I see him going over the course every day." Joax—"Oh, he's only looking for a lost dog. Some butcher told him he might find it in the links."

HARRIS LITHIA WATER

Is the Strongest Natural Lithia Spring Water On The Market

And has the endorsement of the most noted physicians from all parts of the country as to its superiority over all other waters. Read what some of them have to say for Harris Lithia Water.

Asheville, N. C.

An extended clinical use of the Harris Lithia Water prompts me to the statement that I regard it as one of the best, if not the best, Lithia Water known to the profession. In the condition of Phosphatic Urine, its action is marvelous. Its use in the Rheumatic and Gouty diseases afford me more comfort than either the Buffalo or Londonderry waters.

Very truly yours,
John Hey Williams, M. D.

After a long and varied experience in the use of mineral waters from various sources, both foreign and domestic, I am fully persuaded that the Harris Lithia Water possesses efficacy in the treatment of afflictions of the Kidney and the Bladder unequalled by any other water of which I have made trial.

This opinion is based upon observation of its effects upon my patients for the past three years, during which time I have prescribed it freely and almost uniformly with benefit in the medical maladies above mentioned.

A. N. Talley, M. D.
Columbia, S. C.

Mr. J. T. Harris, Proprietor Harris Lithia Springs,

Dear Sir: While it is contrary to my custom to give testimonials to remedial agencies, I feel free to attest to the efficacy of the Harris Lithia water (when used in large quantities) in the rheumatic and gouty diatheses; in engaged states of the kidneys; in inflammation of the bladder, and in all cases where there is an excess of solids in the urine.

Yours respectfully,
Geo. Howe, M. D.

The waters of the Lithia Springs are odorless, free from color, with a pleasant saliney taste, rather palatable. When taken in considerable quantity, they do not nauseate, purge, or produce any feeling of discomfort. I find from the analysis of the waters, they contain Chloride Sodium, Carb. Potash, Carb. Soda, Carb. Lithia, Carb. Iron and Sulphate Magnesia. These waters act directly upon the mucous coating of the stomach and alimentary canal, they are powertully alterative and tonic. They are everything to inflamed or irritated surfaces. They act upon the blood, changing it from acid to alkaline. In indigestion, catarrh of stomach and gastralgia, supplemented with a proper diet, they are a certain cure. The action upon the kidneys is marked. The sodium, potash, soda, lithia, are the best solvents of uric acid, all calculi of an acid character, whether litary or cystic, are steadily dissolved. I am confident that the profession will find it very useful in cases where this class of water is required.

J. Q. Wilbur, M. D.
Walterborboro, S. C.

Read what the noted Dr. Thomas S. Powel has to say for Harris Lithia Water:

Mr. J. T. Harris:

Dear sir—I have found the use of the water from your Lithia Spring in South Carolina so efficacious in the case of a young lady patient of mine who has suffered for years with diabetes, with all its different attendants, that I want to add my testimonial to the many you already have. The patient I refer to has used the water freely at home for scarcely a month now, with more beneficial results than from months spent at the different noted lithia springs in different parts of the United States, besides long continued use of the same waters at home. Other of my patients and friends are now using the same with best results. I cordially recommend it to all suffering from similar diseases.

Very respectfully pours,
Thomas S. Powell, M. D.
Pres. Southern Medical College, Atlanta, Ga.

Read what Prof. Joseph Jones, of Tulane University of New Orleans, has to say in regard to the virtues of Harris Lithia Water.

New Orleans, La.

Gentlemen:—I have used with great benefit, the Harris Lithia water, and regard it with favor, the water being highly charged with lithia.

Respectfully,
Jos. Jones, M. D.

Newberry, S. C.

I have prescribed Harris Lithia water in my practice, and am delighted with it in those cases in which it is indicated. In all those conditions in which there is uric acid in the system, in gouty and rheumatic diathesis, in cystitis and endocervicitis, causing painful micturition, in renal dropsy and dyspepsia, due to torpid liver or constipation, I have found the best results from this mineral water. Indeed, it may be used to advantage in any case in which its formula may suggest itself, especially when lithia is indicated. I recommend it to the public and believe there is no superior lithia water in this country.

Camden, S. C.

Mr. J. T. Harris:

Dear Sir—I enclose you in this letter several pieces of calculi passed by a patient of mine who has been taking the Harris Springs water for the past eighteen months. This gentleman has been a sufferer for two or three years with cystitis, caused from stone. The solvent power of the water has been, I think, clearly demonstrated in this case. All these fragments were passed in two evacuations from his bladder in the past ten days. I consider Harris Spring water a most excellent remedy in the uraic acid diathesis, also in chronic dyspeptic troubles.

I am, yours respectfully,
A. W. Burnet, M. D.

Chester, S. C.

Dear Sir—For the past 8 months I have been using Harris Lithia water with the most excellent results, where I have been able to get my patients to drink a sufficient quantity daily. The carbonated has no equal in gastric disturbances. It is an excellent table water. It is a pleasant laxative, and is a sure cure for flatulent dyspepsia.

S. M. Cavege, M. D.

Baltimore, Md.

J. T. Harris, Esq., Harris Spring, S. C.:

Dear Sir—I have been using Harris Lithia water for some time, and I will say to you that it is my opinion that the Harris Lithia water is by far the best lithia water that I have ever used, and that it has done me a great deal of good, and I think that it is a most valuable remedy.

R. C. Hoffman,
Pres. S. A. L. R. R.

WE GUARANTEE

That One Glass of Harris Lithia Water will relieve any case of indigestion in One Minute or Money Refunded. Or of taken after each meal will cure the most stubborn case of indigestion. Why will you suffer when you have this guarantee? The water is for sale by the Druggists of Greensboro.

FAST TRAIN KILLED FIGHTERS.

It Rushed Upon Them as They Struggled on the Track.

Shamokin, Pa., Nov. 13—Two men, blindly fighting on the Reading railway track at Enterprise, three miles from here, last night, paid no heed to an approaching train, and they were struck and killed. The engine tore the clenched combatants apart and ground their bodies to fragments, some of which were carried along the railroad a distance of five hundred yards.

Joseph Zunak and Kondiak Dewinski, foreigners, were the men whose fury cost them their lives. There was a christening at Enterprise yesterday, and beer flowed freely. Zunak and Kondiak, both young and muscular men, got into an altercation, and agreed to settle their difference by a fight with bare knuckles. With others of the guests along to see fair play, they went down the railroad to a point 75 yards from the depot, where a ring was formed.

Hats and coats were thrown aside, and the men attacked each other savagely. Blood was soon streaming down their faces, and they bit, scratched and pounded with increasing rage. As they rolled about on the track the spectators of the fray saw the head light of an express flashing around the curve close at hand. Their warning cries were unheeded by the fighters.

Engineer W. H. Hinckley saw the group ahead and blew the whistle. The fireman rang the bell. The lever was reversed and air brakes applied, but all to no avail. The express struck the men fairly and crushed them.

When the train came to a standstill the crew and passengers ran back to fighting ground. They found the crowd of foreigners greatly excited. The ignorant people imagined that the trainmen were responsible for the death of their comrades and started to attack them. The passengers, however, protected the railroad men and the foreigners were scattered.

The parts of the bodies were gathered up and carried to the station. As the train left, the foreigners, who hung around, cursed the crew and declared they would get even.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphi, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"it soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the Universe." So will every one who tries Dr. Kings' New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c. and $1. Trial bottles free at C. E. Holton's drug store; every bottle guaranteed.

Hardupe—"Isn't this bill pretty steep?" Tailor—"No; it's on the level."

Not a Surprise.

It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale by C. E. Holton, druggist.

A THIN DISGUISE.

The cuttle fish has a tricky habit of covering his tracks by exuding an inky fluid which discolors the water and keeps him out of view. There's a good deal of the cuttle fish about some advertisements, notably those purporting to offer medical advice by a woman to women. An examination of the advertisement will show that no offer of a *doctor's* advice is really made. And all the clamor about "writing to a woman" is merely raised to divert attention from the fact that a doctor's advice is not really offered and cannot be given. The real question is not of writing to a *woman* or a *man* but of writing to a *doctor*,

For the advice of an unqualified woman is just as dangerous as the advice of an unqualified man.

Every day adds to the number of women who take advantage of Dr. Pierce's genuine offer of a consultation by letter free of cost. As chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., Dr. R. V. Pierce has, in a practice of over thirty years, treated more than half-a-million women for female troubles with the remarkable record of ninety-eight per cent. of cures. Sick women are invited to consult Dr. Pierce by letter, without fear and without fee. Every letter is held as strictly private and sacredly confidential, and all answers are mailed sealed in plain envelopes without printing of any kind upon them.

BLEW A HOLE IN SOLID ROCK.

Terrible Explosion of Nitro-Glycerine at Ohio Factory.

Tippin, Ohio, Nov. 22—A magazine used by the Bradford nitroglycerine factory factory to store the explosive, located two and a half miles east of Gibsonburg, exploded this afternoon. The noise of the shock was heard in towns within a radius of forty miles, and the effect of the explosion in the immediate neighborhood was terrific.

The magazine was located in the woods a quarter of a mile from any dwelling, and this alone prevented greater loss of life. Benjamin Card, driver of a stock wagon, had brought a load of 720 quarts of nitro-glycerine from the factory at Bradford, and was unloading it when the explosion occurred. Just how it happened will never be learned. Card and the two horses driven by him received tyhim received the full effect of the explosion. He was blown almost to atoms, only a few shreds of his body being found, and pieces of horse flesh were hurled several miles.

It is supposed that Card had a companion, but this is not positively known. The explosion made a hole seven feet deep in the solid rock, and trees in the vicinity were torn to splinters. People within a mile of the place were knocked down, pictures were torn from the walls, dishes thrown out of cupboards, windows shattered, and houses moved from their foundations. All the windows in Gibsonburg were broken.

There were about 1,500 quarts of glycerine on the wagon and in the magazine.

Card lived in Bradford, Ohio, and left a family.

The shock was distinctly felt here.

Scrofula to Consumption.

Any one predisposed to Scrofula can never be healthy and vigorous. This taint in the blood naturally drifts into Consumption. Being such a deep-seated blood disease, Swift's Specific is the only known cure for Scrofula, because it is the only remedy which can reach the disease.

Scrofula appeared on the head of my little grandchild when only 18 months old. Shortly after breaking out it spread rapidly all over her body. The scabs on the sores would peel off on the slightest touch, and the odor that would arise made the atmosphere of the room sickening and unbearable. The disease next attacked the eyes, and we feared she would lose her sight. Eminent physicians from the surrounding country were consulted, but could do nothing to relieve the little innocent, and gave it as their opinion that the case was hopeless and impossible to save the child's eyesight. It was then that we decided to try Swift's Specific. The result was almost magical. It made a speedy and complete cure. She is now a young lady, and has never had a sign of the disease to return.

MRS. RUTH BERKELEY,
Salina, Kan.

Scrofula is an obstinate blood disease, and is beyond the reach of the average blood medicine. Swift's Specific

S.S.S. For The Blood

is the only remedy equal to such deep-seated diseases; it goes down to the very foundation and forces out every taint. It is *purely vegetable*, and is the only blood remedy guaranteed to contain no mercury, potash or other mineral substance whatever.

AUTOMOBILE PLOW.

Gatling Turns His Ideas Into New Fields.

Dr. Richard J. Gatling, who revolutioned methods of warfare by inventing the rapid-fire gun that bears his name, has invented an automobile plow, says a Chicago special to the New York World. It will do the work of eight men and 12 horses. The propulsion power will be either gasoline or oil.

In addition to its primary use in the field, the machine can be used in driving a thrasher, shelling corn or hauling purposes. With it he expects to supersede the moldboard plow that is now in general use for the preparation of land for cultivation

The machine will be built on the principle of the automobile, with disk plows so arranged as to do the work of the implements now in use with greater facility and rapidity, and at a greater saving. He promises to build the machine so that it can be operated by a single man.—Philadelphia Record.

Robbed the Grave

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows; "I was in a most dreadful condition from dyspepsia. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides; no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters; and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at C. E. Holton's drug store.

Baldness Can be Cured

just so long as there is a particle of vitality left in the hair roots. The fact that the head is smooth and shining is no positive proof that the roots beneath are dead.

Deep down beneath the skin, hair roots may yet exist, filled with latent vitality, and all that is required to develop them into a beautiful head of hair is the faithful application of the proper agents.

Seven Sutherland Sisters'

preparations furnish the easiest, surest and quickest way to ascertain if there is or is not latent life beneath a head bare of hair. Why not try them?

A STEAMER FOUNDERS.

Eighteen Persons, Including Captain, I Believed to be Drowned.

London, Nov. 13—On Friday night the Belgian steamer Belgique from Antwerp, foundered off the Casquet Rocks near the Island of Alderney, the scene of the tragic disaster which last March befell the London and Southwestern Railway Company's passenger steamer Stella.

The night was stormy. A boat was launched with sixteen men, but five of these died of exhaustion and three others were drowned in the endeavor of the ship St. Kilda to rescue them.

Eighteen persons, including the captain, out of a total crew of twenty-six, are believed to have been drowned.

North Carolina Post Offices.

The report of the fourth assistant postmaster general, just made public, contains the following of local interest:

"Number of appointments of Presidential postmasters during the year—North Carolina, 2.

"Number of fourth class appointments—North Carolina, 503."

The report shows that in North Carolina the number of postoffices is 3,-004, the state ranking fifth in this respect, and the gross North Carolina receipts during the year were $788,-121 67.

WINE OF CARDUI

WOMEN WHO WORK.

St. Louis, Mo., Aug. 15.

Though only 19 years old, I suffered from pains and female troubles two years. Last spring I got so bad I had to quit work. I had to support myself, and could not afford a high-priced doctor. I got one bottle of Wine of Cardui and that made me feel better. Have now used several bottles and am well. My mother used the Wine for Change of Life and was greatly relieved.

MISS MARGARET WALSH.

McELREE'S **Wine of Cardui**

Many girls and women find it necessary to earn their own living in various kinds of employment. Their work is often so hard and confining that the health breaks down. Their delicate constitutions are unfitted for tiresome tasks. Weakness nearly always makes its appearance in the peculiarly delicate womanly organs. Constant standing on the feet, and coming and going at the beck of a superintendent or foreman, induces falling of the womb, leucorrhœa, headache and backache. The pay of women workers is often so notoriously small that when sickness comes they have no money to engage skillful physicians. To them Wine of Cardui is truly a blessing. It cures them of their ills at a small cost, and they can act as their own physicians. No doctor can do as much for "female troubles" as Wine of Cardui.

MISS JULIETTE.

Second Night of Mabel Paige at the Academy.

As we understand it the Marshall Musical Comedy Company doesn't carry any heavy bills and doesn't claim to play anything but light comedy. It is only fair to base our expectations and criticisms on what they claim. The company is a very clever one and the bill last night, Miss Juliette, was prettily rendered, Miss Mabel Paige appearing in the title role.

The piece is full of fun and ridiculous situations, and the applause given was evidence that the audience was delighted. There was no heavy plot, requiring study, to carry through the play, and it was such a performance as gives diversity and rest to the tired business man, who is weary with working out knotty problems.

Tonight, the last of Miss Paige's three with us this season, she will present by request of a number of Greensboro ladies, one of her favorite bills, "The Little Egyptian." She has appeared in this bill over a thousand times, and it is said she is there at her best. A large house will probably greet her tonight.

Let's Have a Game.

Editor Telegram:

I notice in your paper that Oak Ridge won from Davidson College last Saturday and Guilford College beat Mebane. Why can't these two schools play a game somewhere in the county, say at Greensboro or at Guilford College? More people in Guilford are interested in the games of these two schools than in all the others, because nearly all the prominent men in the county were educated or partly educated at one or the other of these representative schools of the county. Both schools appear to have strong teams. Whose fault is it that no game is arranged this year? Is it a case of "Guilford is afraid and Oak Ridge ca'sent," or how? Will these schools inform the public where the hitch lies? J. K. S.

W. F. Clegg is having the dining room and office of his hotel re-papered, and when completed these rooms will present a neat and attractive appearance.

Ex-Governor Bob Taylor coming! Hear his new lecture, "Love, Laughter and Song," at the Academy of Music, Wednesday night, November 22nd.

The marriage of B. F. Sprinkle to Miss Ida Ellington was solemnized at the home of the bride in Reidsville at 11 o'clock this morning, and the couple left on No. 38 for a bridal trip to northern cities.

Charles P. Sellars has returned from Clinton, where he represented the American Tobacco Company during the past few months. He will be on the Greensboro market the remainder of the season.

Richard Crawford went over to Reidsville this morning to attend the marriage of Miss Louie Burton to Mr. Robert Gladstone at 5 o'clock this afternoon in the Reidsville Baptist church, Rev. Mundy officiating.

At 11 o'clock this morning, Miss Linda Toms, of Rutherfordton, N. C., died of heart failure at the State Normal and Industrial College, after a brief illness. During the seven years of its existence, only two students have died at the college.

John R. Schenck left Greensboro last night for Philadelphia to have his eyes examined. If the physicians give him any encouragement to hope for restored sight, he will remain there under treatment. His sister, Miss Rebecca Schenck, accompanied him.

Charlie Gwynn, colored, knocked his wife in the head with a stick of wood late yesterday evening and then did the same for another negro named George Kivett because he interfered. Kivett reported the matter to the police and Gwynn has been arrested.

Invitations have been received in this city announcing the marriage on November 29th, at 8:30 a. m., at the Presbyterian church in Durham, of Miss Annie Louise Watts, daughter of Mr. and Mrs. Geo. W. Watts, to Mr. John Sprunt Hill, a prominent young attorney of New York.

These are busy days in Sheriff Gilmer's office. People are beginning to realize that the new law in regard to the payment of taxes is much more stringent than formerly, and that the sheriff has no choice but to comply with it; so they are coming up and settling their taxes before the time is out.

Dangerous Business.

We shudder sometimes to see the risks some people run in jumping from moving trains. Parties board the train very often to see a lady or relative off and stay on the cars until they begin to move, when they rush to the platform of the car and jump off. At times we have almost held our breath upon seeing them fall, expecting every second to see them mangled beneath the wheels. It is truly a dangerous business. No longer than last night we saw an old lady attempt to jump off the southbound fast mail before it came to a standstill and she was saved from falling only by a gentleman who happened to be near. The safest way to prevent any possible accident that might occur is to get off the cars before they start or either stay off entirely.

Rebuilding the Lines.

The Western Union Telegraph Co. is rebuilding its lines between Greensboro and Sanford, says a special from the latter place to the Charlotte Observer. A train load of poles was sent out from Sanford yesterday for distribution along the route.

Men's high cut winter russet and high cut black winter calf shoes, English last, three soles, with bright eyelets and hooks, leather strap and back stay, all sizes, are sold for $3.25 at Thacker & Brookman's. This firm also sells a first rate up-to-date line of regular cut men's shoes in black and tan at $2 25, $3 and $3.50.

STAR GAZERS

Disappointed Last Night, But Will Watch Again Tonight.

There were several watch parties last night which were greatly disappointed. The meteoric showers which were scheduled by astronomers to appear last night failed to show up. A great many parties have been formed to watch for the display again tonight.

The New York Herald, of Sunday, in reference to the time of the shower, says:

"The advance guard may probably put in an appearance within a day or two of November 14 and 15, but the predicted time for the maximum display is from midnight until dawn on the morning of November 16th."

So we may see stars yet.

"The Midnight Fire."

Messrs. Bertram & Willard, authors of the pretty military play, "Captain Dick," which was given in Greensboro last summer, are in Durham making arrangements for presenting "The Midnight Fire," another play given by them in this city.

The Poet Burns,

Not the least of the advantages attending life assurance is the serenity of mind which attends the provident man lying on a bed of sickness, or when he is in prospect of death—so unlike that painful anxiety for the future welfare of the family not provided for. The poet Burns, in writing to a friend a few days before his death, said that he was "still the victim of affliction. Alas! Clark, I begin to fear the worst. Burns' poor widow and a half a dozen of his dear little ones, helpless orphans; there, I am weak as a woman's tear. Enough of this, 'tis half of my disease!"

"If you would escape the rock upon which the lamented Burns split;" take shelter from the storm that is bound to spend its fury upon you when the fatal summons comes, by at once securing the magnetic contract offered by the Provident Savings.
